Projects

Internship Project: Website Development for a Fotball Club

November 2024 - Ongoing

As part of my current internship, two classmates and I were tasked with developing a website for a newly established football club. Our tech stack includes ReactJS, TypeScript and TailwindCSS. We work with agile methodologies following Scrum and maintain close collaboration with our supervisor, who acts as the client.

My conotributions:

- Designed the website's layout and structure in Figma, focusing on userfriendliness and modern aesthetics.
- Implemented the hero section, which introduces the club with a responsive design and visually appealing elements.
- Developing a news section that fetches and displays data via Instagram's API to showcase the club's latest updates.
- Collaborating closely with the team and supervisor to ensure the project meets the client's requirements and vision.
- Actively participating in Scrum processes, including daily standups, sprint planning, and demos to showcase our progress.

Profile

Hello! My name is Karin Ekenberg, and I am at the beginning of my career as a web developer. With a strong passion for creating intuitive and user-friendly websites, I am always seeking new challenges and opportunities to grow in my field. I am currently studying at TUC Yrkeshögskola in Jönköping (distance learning), where I gain solid knowledge in HTML, CSS, JavaScript, and several modern frameworks through both studies and practical experience.

I am driven by finding creative solutions to technical problems and love seeing my ideas come to life on the screen. I am not afraid to learn new technologies and continuously strive to expand my skill set. My ambition is to continue growing as a developer and contribute to exciting projects that make a real difference.

Skills

- C#
- JS
- HTML & CSS
- Scrum
- Agile Development Methods
- React
- TypeScript
- WordPress
- Photoshop
- Adobe Illustrator
- Figma

Languages

Swedish (native),
English(fluent),
German (basic).

Driver's License

Category B.

Portfolio

Objectives

I am currently looking for an internship in web development where I can apply and enhance my skills in a real work environment. My strengths include generating new ideas and being creative, as well as a passion for learning that makes me particularly suited to this field. I appreciate the opportunity to constantly learn new technologies and update my knowledge, which makes web development an ideal platform for my professional growth.

During my internship, I aim to gain a deeper understanding of the industry while building valuable networks. After completing my education, my overall goal is to secure a full-time position in web development. I look forward to continuously developing my skills and contributing to innovative projects as a dedicated team member.
